

Value-Added, Cost-Saving Technology for Veterans Homes

Did you know your Veterans Homes could be eligible for thousands of dollars in cost savings and drug manufacturer rebates? SRX's automated software is uniquely designed to help Veterans Homes lower Medicare Part A pharmacy costs and help your homes receive valuable rebate dollars. Best of all, there are no out-of-pocket costs.

Case Study

We partnered with Veterans Homes in two states* to lower their net drug costs by automating the submission of valuable drug manufacturer rebates.

We do this by using proprietary SRX software to identify rebate-eligible items on pharmacy invoices each month, ensure all the information required is available, then submit rebate forms to manufacturers. With SRX, these Veterans Homes received rebate checks each quarter, guaranteed.

STATE 1 (FOUR HOMES)

2021 VA Homes	Gross Rebate Amount
Q1	\$20,081
Q2	\$22,268
Q3	\$21,936
Q4	\$15,971
2021 Total	\$80,256

STATE 2 (THREE HOMES)

2021 VA Homes	Gross Rebate Amount
Q1	\$14,661
Q2	\$10,483
Q3	\$12,298
Q4	\$8,224
2021 Total	\$45,666

Significant Cost Savings

Integration with all related aspects of your pharmacy bills (EHRs, drug databases, pharmacy contracts, formularies, etc.)

Point-of-sale adjudication controls what ends up on your bill and ensures pharmacy compliance from dispensing to billing.

Powerful reconciliation and reporting tools provide valuable insight and analysis for controlling costs and reducing waste.

Automated drug utilization review improves outcomes and accountability for formulary and contract pricing.

AVERAGE COST SAVINGS OF OVER 16%

An Unrivaled Solution

Our technology identifies and submits all eligible rebates automatically.

Guaranteed, transparent rebate amounts.

Guaranteed quarterly payments, paid on time, every time.

"We have found that an extra several thousand dollars every quarter has been a welcome addition to our pharmacy operations."
